

A venture production studio building decentralized applications and various developer and end-user tools for blockchain ecosystems, focusing primarily on Ethereum.

HUB & SPOKE

investments and the formation of joint ventures. These spokes benefit from foundational components built

GLOBAL

// PLATFORMS & APPLICATIONS

A prediction markets as a service platform that can be used for various domains from sports to celebrity news Gnosis.pm

A platform for modeling business processes, tracking assets and building supply chains of the future

Viant io

GRID+

Leverages the public Ethereum blockchain to give consumers direct access to wholesale energy markets

AIRSWAP

A platform that makes it easy to find, price, and trade tokens peer-to-peer on the Ethereum blockchain.

TRUSET

FATHOM

A decentralized peer

A decentralized marketplace to crowdsource the collection, cleansing, and distribution of capital markets reference data. Truset com

assessment protocol forming the foundation of a universal

UJO

Ujomusic.com

BALANC3

A distributed ledger system and shared data environment for triple-entry accounting and financial audit reporting. Balanc3.net

A decentralized technical

developers at all levels and

support network to serve

B

GRID

VIRTUE POKER

trust, transparency and provably fair gaming. Virtue.poker

BENEFACTORY

to their mission.

OPENLAW

A community platform for proposing and crowdfunding public goods that contribute

GovernX

GOVERNX

and safe. Omega.one

A governance platform for creating and managing complex decentralized and distributed organizations. Boardroom.to

OMEGA ONE A decentralized, automated trade execution platform

making crypto trading cheap

A platform for sustainable

and trustworthy journalism using open governance and cryptoeconomics.

Fathom.network **BOUNTIES NETWORK**

academic system

Freelance task fulfillment, paying out in any Ethereum token upon successful

Bounties network

shared property ownership, for investing in a simple and accessible way Pangea.io

CODE SPONSOR

Helps fund open source projects through ethical advertising targeting developers.

Codesponsor.io

A digital rights management platform enabling fairness, transparency and profitability in music and creative works

·Q

VARIABL

GITCOIN

Scales open source projects using incentivization mechanics to crowdsource tasks, recruit talent and improve projects

LINNIA

KAURI

A platform for consumers to store and permission access to their longitudinal health data in order to live their best life.

FRONTIER

A blockchain-based protocol for the creation and execution of legal agreements in a user-friendly, compliant way Openlaw.io

A decentralized platform for curated fundamental token research and

FRONTIER

analysis.

CIVIL

Joincivil com **CELLARIUS**

A transmedia storytelling franchise for users to create a collaborative, fan-curated universe on blockchain.

Cellarius.network

Trustology.io

DILIGENCE

// SERVICES

Variabl.io

TRUSTOLOGY A custody platform to safe guard crypto assets, with customizable smart accounts for diverse client needs.

zero-sum smart contracts.

CONSCIENCE

A scientific research, peer review and publishing platform that is transparent and auditable.

TOKEN FOUNDRY

A platform to help projects design and launch tokens fairly/transparently & help

Tokenfoundry.io

SOLUTIONS

Global provider of enterprise and exploratory blockchain solutions to major institutional clients.

CONSENSYS MEDIA

News, education, and leading innovations from leaders in the blockchain industry and community outreach.

Media.consensys.net

Bridging the Ethereum knowledge gap globally for developers and non-developers

CONSENSYS ACADEMY

diligence@consensys.net CONSENSYS LABS

An Ethereum security best practices service provider, promoting legal precautions

and ethical business mode

Our venture studio supports entrepreneurs and developer as they build ventures on the Ethereum platform.

ENERGY

people purchase tokens safely CONSENSYS ENERGY

Enterprise and industry-spanning blockchain solutions for the energy sector including trading, markets and logistics.

ETHEREAL SUMMIT

A regular gathering to promote building a decentralized future and engage broader audiences in blockchain.

An industry-wide initiative for

CONSENSYS CAPITAL

Builds institutional market infrastructure for the emerging digital asset class.

VENTURES

CONSENSYS VENTURES

Helps entrepreneurs in the decentralized technology sector scale business through strategic capital and our global network

BLOCKCHAIN FOR SOCIAL IMPACT

Facilitates collaboration on R&D and implementation Blockchainforsocialimpact.com

CONSENSYS ADTECH

Helping advertisers secure supply chains by leveraging decentralized human subjectivity. Technical advisor to AdChain.

THE BROOKLYN **PROJECT**

token-powered growth and consumer protection.

Thebrooklynproject.consensys.net

LIPORT

user-controlled disclosure. Uport.me

METAMASK

An identity and transaction management solution in a web browser, eliminating the need to install an Ethereum node.

ALETHIO

A blockchain analytics platform providing insights to startups, projects, enterprises and empowering the community.

// DEVELOPER TOOLS

BTC RELAY

Ethereum smart contracts can trustlessly verify arbitrary Bitcoin transactions and Btcrelay.org

TRUFFLE

A development environment, testing framework and asset pipeline for Ethereum-based Truffleframework.co

NETHEREUM

A .NET integration library for Ethereum allowing users to interact with Ethereum clients like geth or parity using RPC

Toronto. San Francisco, London, Paris, Bucharest and Dubai, as well as growing regional presence in Latin America, Africa and Asia Pacific.

// INFRASTRUCTURE

INFURA

A scalable, standards-based, globally distributed cluster and API endpoint for Ethereum, IPFS, and other infrastructures.

PEGASYS

A protocol engineering team exploring Enterprise Ethereum environments for private chain use cases.

Microsoft and ConsenSvs have partnered to offer Ethereum Blockchain as a Service on Microsoft Azure so Enterprise clients and blockchain developer environment.

Interested in working with ConsenSys?

We're always interested in talking to blockchain developers and companies looking to collaborate
